

REMIT PRESENTED BY BREAM BAY BRANCH

This Remit proposes that the written receipt books system be phased out and a Data Base list of paid members replaces it in Branches where it is practicable to do so.

Branches who still want to use the Receipt Book System may still do so.

The Branch Treasurer will record all members' payments on the list and when the affiliation fees are paid will send a list via email or post to

The National Treasurer and also The Privacy Officer

Each Data Base list will have Names, Addresses & any Life Members recorded in alphabetical order

Branch Treasurers can use their own receipt books to record monies.

REASON FOR THIS PROPOSED CHANGE OF SYSTEM

With so many members now paying by Internet banking, they don't need another receipt for this remittance

The Treasurers have their list of members, so why not send the list to the National Treasurer & Privacy Officer

Moving to a Data Base List will provide more accurate method for Branch Treasurers to use.

The National Committee will save funds by not buying & shipping the receipt books.

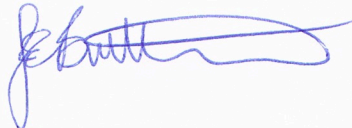

This remit has been approved by the Bream Bay 60's Up Committee.
